DETAILED ACTION

Response to Amendment

1. Applicant's amendments and accompanying remarks filed 12/1/03 have been entered and carefully considered. Applicant's amendment is found to overcome the previous rejection because Reader taught the use of an adhesive. Despite this advance, the amendment is not found to patently distinguish the claims over the prior art and Applicant's arguments are not found persuasive of patentability for reasons set forth herein below.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reader et al (5883026) in view of Lickfield et al (5804512).

Reader teaches bonding the layers together but fails to teach bonding without an adhesive at discrete bond sites. Lickfield is concerned with the creation of a nonwoven filter laminate used as a mask. Lickfield teaches bonding the layers together by several different methods including adhesive and thermal bonds (col. 4, lines 60-70). Lickfield teaches that a plurality of discrete thermal bonds is the preferred method of bonding. It would have been obvious to a person having ordinary skill in the art to utilize Lickfield's bonding method in the laminate of Reader. Such a combination would have been motivated by the desire to utilize the art-recognized preferred method of bonding.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
